Kansas Association for Floodplain Management (KAFM)
Don E. Slone, AICP, CFM, KAFM Chair
205 E. 2nd St.
Bonner Springs, KS 66012-1001

Dear Don,

CONGRATULATIONS! During a recent ASFPM Board of Directors conference call meeting, the Board approved the Chapter Directors' recommendation to accept the Kansas Association for Floodplain Management (KAFM) application for Chapter membership in ASFPM.

On behalf of the Association, ASFPM Board and Chapter Directors, I'd like to commend you on reaching Chapter status and welcome your Chapter into the fold. The addition of KAFM brings our number of Chapters to 32!

As you know, there are numerous vital and exciting initiatives in the floodplain management arena now. We are indeed proud to add the floodplain managers in Kansas to the ever-growing group we represent when we network with Congressional and Federal Agency staff in Washington. I urge you to keep our Board and Policy Committee Chairs informed of your issues so that we adequately address your concerns.

A framed certificate will be presented to your Chapter during the annual national conference May 20-25, 2012 in San Antonio, TX, we will be in touch with you later about who you will have accept it. Our 2012 conference page provides details, please note there are several opportunities during the week for Chapters to share and learn from each other. We hope to see you and many other representatives from your state there.

Your designated Chapter representative on the Board of Directors is Brad Anderson. He can be contacted at 907-226-0120 or baanderson@acewater.com. Also, please feel free to contact the very capable Executive Office staff with your questions, comments and concerns – our Chapters Coordinator is Kait Laufenberg, who can be reached at kait@floods.org or 608-441-3007.

Again, congratulations. We applaud the Kansas Chapter for the work you all are doing to reduce flood losses in your state, and appreciate your support of ASFPM.

Cordially,

Chad Berginnis, CFM
ASFPM Associate Director

Cc: ASFPM Chapter Directors

Dedicated to reducing flood risk and losses in the nation.
